

Small Group Instructions

- Task #1: Please introduce yourselves to the rest of your group.
- Task #2: Individually review your **Preliminary Issues List** handout. Then discuss as a group if you believe there are any issues missing that should be added to the list. If so, have a member of your group list those missing issues on your yellow Group Response Form in the middle of your table.
- Task #3: Next, review your handout titled **Draft Guiding Principles**. After everyone has had a chance to review the handout, discuss and decide as a group:
- Is anything missing that should be included?
 - Does your group have any specific suggestions for amending the existing language?
- Please list all of your responses to the Draft Guiding Principles on your Group Response Form.
- Task #4: Finally, choose someone to report out your work once all groups are finished. If your group finishes before other groups, please fill out your Individual Response Form while you're waiting.

If you have questions as your group is working, please raise your hand and a member of the project team will come to your table to assist.
